

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims

- 1) (Previously presented) A portable display system arranged to be carried and manipulated by a human operator, said portable display system comprising:
 - a. a display device capable of displaying an output message;
 - b. a media generating means connected to said display device and capable of generating an output message;
 - c. power supply means able to provide electrical power to said portable display system;
 - d. a transport means adapted to transport said media generating means and said power supply means and adapted to be carried by said human operator, said transport means comprising:
 - i. a support frame;
 - ii. a plurality of fastening means;
 - e. a command means for generating an input command from a user, said user being different from said human operator and said command means being connected to said media generating means;wherein said output message displayed by said display device and generated by said media generating means can be interactively modified upon the generation of said input command.
- 2) (Previously presented) A portable display system as claimed in claim 1, further characterized in that said transport means further comprises:
 - a. a base support means fixedly mounted to said support frame;
 - b. a carrying sack fixedly mounted to said support frame.

- 3) (Previously presented) A portable display system as claimed in claim 1, further characterized in that said transport means further comprises:
 - a. an elongated support member having first end and second end, said second end being fixedly attached to said support frame;
 - b. mounting means for attaching said display device to said elongated member first end.
- 4) (Previously presented) A portable display system as claimed in claim 2, further characterized in that said transport means further comprises:
 - a. an elongated support member having first end and second end, said second end being fixedly attached to said base support means;
 - b. mounting means for attaching said display device to said elongated member first end.
- 5) (Currently amended) A portable display system as claimed in claim 1, ~~3 or 4~~, wherein said display device is a liquid crystal display (LCD) screen.
- 6) (Previously presented) A portable display system as claimed in claim 1, wherein said media generating means comprises media processing means.
- 7) (Previously presented) A portable display system as claimed in claim 6, wherein said media generating means further comprises a digital media player.
- 8) (Previously presented) A portable display system as claimed in claim 1, wherein said media generating means comprises:
 - a. a digital media player;
 - b. media processing means.
- 9) (Currently amended) A portable display system as claimed in claim ~~7 or 8~~, wherein said digital media player is a digital versatile disk (DVD) player.

10) (Currently amended) A portable display system as claimed in claim ~~6 or~~ 8, wherein said media processing means is a game console or a portable computer.

11) (Cancelled)

12) (Currently amended) A portable display system as claimed in claim 10, wherein said command means ~~is a game pad~~ are connected with wires or wirelessly to said game console or to said portable computer.

13) (Cancelled)

14) (Currently amended) A portable display system as claimed in claim ~~10~~ 12, wherein said command means ~~is~~ are a joystick or a game pad or a remote control or a gyroscopic mouse or a keyboard or a touchscreen connected with wires or wirelessly to said game console.

15) (Cancelled)

16) (Cancelled)

17) (Cancelled)

18) (Cancelled)

19) (Cancelled)

20) (Cancelled)

21)(Currently amended) A portable display system as claimed in claim 10, further comprising wireless communication means connecting said game console or said portable computer to a computer network.

22)(Cancelled)

23)(Currently amended) A portable display system as claimed in claim 21, wherein said wireless communication means is a Radio-Frequency (RF) communication system or a cellular communication system or a Wi-Fi communication system.

24)(Cancelled)

25)(Cancelled)

26)(Cancelled)

27)(Cancelled)

28)(Cancelled)

29)(Currently amended) A portable display system as claimed in claim 1-~~or 2~~, wherein said portable display system further comprises a sound generating means connected to said media generating means.

30)(Previously presented) A portable display system as claimed in claim 29, further comprising speakers connected to said sound generating means.

31)(Cancelled)

32)(Cancelled)

33) (Previously presented) A portable display system as claimed in claim 1, further comprising short message service (SMS) and multimedia message service (MMS) interface means connected to said media generating means.

34) (Previously presented) A portable display system as claimed in claim 2, wherein said carrying sack is a shell made of rigid material.

35) (Previously presented) A portable display system as claimed in claim 34, wherein said rigid material is a hard plastic.

36) (Previously presented) A portable display system as claimed in claim 1, further comprising:

- a. an telescopic pole having first end and second end;
- b. mounting means for attaching said display device to said telescopic pole first end; wherein said telescopic pole can be used by said human operator to carry said display device or to support said display device on the ground.

37) (Cancelled)

38) (Currently amended) A portable display system as claimed in claim 36 ~~or 37~~, wherein said display device is a projector.

39) (Previously presented) A method for using the portable display system as described in claim 1, said method comprising the step of:

- a. attaching said frame support to said human operator using said fastening means;
- b. said human operator wearing said portable display system;
- c. said human operator walking to an audience, said audience comprising a plurality of potentials users;
- d. said human operator handing said command means to one of said users;

- e. said user sending an input message to said media generating means using said command means;
- f. said media generating means generating an output message to said display device according to said input message sent by said user using said command means;
- g. said display device displaying said output message.
